EXAMINER'S AMENDMENT

1. Authorization for this examiner's amendment was given in a telephone interview with Michael G. Verga on 1/14/2008.

Beginning of amendments:

In claim 141, change "system of claim 138" to --system of claim 120--.

In claim 142, change "system of claim 138" to --system of claim 120--.

End of amendments:

Reasons for Allowance

2. Claims 96-114, 117-137, 140-149 are allowed.

Regarding claim 96, it is noted that the closest prior art of record, Zoels et al. (US Patent 6,047,074), teach the use of a processor based hearing aid with an actuator, but Zoels et al. does not specifically teach an actuator arrangement configured to provide output stimulation to one or more hearing structures of the recipient based on said artificial speech signal, comprising a flexible carrier member configured to be implanted in the cochlea of the recipient. Also independent claims 120 and 143 include similar limitations. Thus, independent claims 96, 120 and 143 are allowable over the prior art of record because the cited prior art alone or in combination, does not fairly suggest or disclose the claimed combination of features.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement for Reasons of Allowance."
